TURBO 15 DIAMOND BLADE (FORMERLY TURBO MAX)

The EVO Diamond Turbo 15 Diamond Blade is a long-life diamond blade suitable for cutting all hard materials, including granite and steel

The EVO Diamond Turbo 15 Diamond Blade is suitable for cutting all hard materials, including granite, steel, concrete, stone, bricks, tiles and paving. The Turbo 15 Diamond Blade has a hard wearing large 15mm diamond segment for long life and fast cutting speed, enhancing efficiency. The Turbo 15 Diamond Blade features cooling holes which are required when cutting very hard materials

Key Features

- Suitable for all hard materials, including granite and steel
- Hard wearing segment and fast cutting speed
- Large 15mm diamond segment for long life
- Manufactured to: ISO and EN13236 standard
- Self cooling holes
